CUTTING DIRECTIONS

½” seam allowances are included. Take pattern pieces together at notches.

- Two (2) Exterior Bag in Fabric A, Fabric D, and Fusible Fleece (Front, Back, and Lining)
- Two (2) Middle Bag in Fabric B
- One (1) 6” x WOF from Fabric B and Fusible Fleece (Strap)
- Two (2) Front Flap in Fabric C (Flap)
- One (1) Front Flap in Fusible Fleece
- Two (2) 3’ x 16’ strips from Fabric C
- One (1) 3’ x 16’ strip from Fusible Fleece
- Two (2) 3’ x WOF from Fabric A, Fabric D, and Fusible Fleece (Side Panel)

CONSTRUCTION

Sew all rights sides together with ½” seam allowance.

- Once all you pattern pieces are taped together and cut out, iron fusible fleece to the wrong side of your exterior pieces cut in Fabric A, your strap piece cut in Fabric B, one of your flap pieces and 3’ x 16’ strips cut in Fabric C.
- Next take both middle bag pieces cut in Fabric B and sew wrong sides together following Diagram 1. With a small scissor snip the curves and flip piece right side out and press flat.
- Find the mid point of your middle bag, place it at the mid point of one of your exterior bag pieces cut in Fabric A. Pin in place and topstitch middle bag down at 1/8” (Diagram 1.2)
Applying a Magnetic Snap

- **Note:** A magnetic snap has two main components, a male side & a female side. The magnetic snap also comes with a backing washer for each component. When you purchase a magnetic snap, you will receive 4 metal pieces in total.

- Find the mid point of the flap with the fusible fleece on the back. Measure 2” up from the bottom of your flap.

- Mark and place a 1” x 2” rectangle of hard fusible centered on this mark and fuse in place. This is the piece you are going to add the male side of the magnetic snap.

- Place a washer on the wrong side of the fabric, 2” up from the bottom center of your flap. Mark with a pencil two lines, from top and bottom tracing inside the rectangles on the washer. (Diagram 3)

- Remove the washer and make two slits on those marks using a small pair of sharp scissors.

- Place the arms of the male magnet clasp through the slits from the right side of the top flap pattern piece.

- Put the washer over the arms from the fusible side.

- Using pliers, fold each arm of the clasp out and down in opposite directions around the washer. Make the arms as flat as a possible.

- To attach the female side of the magnetic clasp, cut out a small rectangle of hard fusible about 1” x 2”. Place on the wrong side of the fabric about 4” down from the top of the exterior of the bag. Iron fusible in place.

- In the middle of this fusible piece is where you are going to place your female side of the magnet clap.

- Repeat the same process in Diagram 3-5 with the female side of the magnet.
• Sew the front and back flap pieces together. With a small scissor snip the curves and flip piece right side out and press flat. Topstitch flap at 1/8".

(Diagram 8)

• Next take two 3” x WOF strips from Fabric A and trim off selvages. Sew short ends together to get a long strip which will be the side panel of your bag. Iron fusible fleece to the wrong side of the fabric. Repeat this same process for the side panel for the lining.

• Line up the seam on your side panel to the bottom midpoint of your front bag. Make sure right sides are together and continue pinning the side panel. Cut off excess fabric. Sew side panel to front bag.

• Take the back of bag and repeat this same process to sew the other side of the side panel.

• Next take the front and back lining pieces and sew the side panel the same way we attached the side panel to the exterior of the bag but leave a small unsewn portion in order to pull the right side of the bag through.

• Sew flap to your back bag making sure the front of you flap is touching the back of your bag.

(Diagram 9)

• Take a 6” x WOF strip from Fabric B and fold in half with right sides together and sew the long sides together. (Diagram 10.1)

• Turn right side out using a safety pin to inch your way through. Press flat. (Diagram 10.2)

• Sew ends of straps to each side panel. Tuck the exterior of the bag into the lining. Right sides of the lining and exterior of the bag should be facing each other. Pin lining and exterior of bag together. Sew around top of bag at 1/2”. Flip right side of the bag through the unsewn portion in the lining.

• Fold under raw edges and hand stitch or machine stitch unsewn portion in lining closed.

NOTE: While all possible care has been taken to ensure the accuracy of this pattern, We are not responsible for printing errors or the way in which individual work varies. Please read instructions carefully before starting the construction of this quilt. If desired, wash and iron your fabrics before starting to cut.
