MATERIALS

Fabric A RPT-2703 ½ yd.
Fabric B RPT-2704 ¼ yd.
Fabric C PE-408 3/8 yd.

CUTTING INSTRUCTIONS
• Four (4) 21” x 7” rectangles from fabric A
• Two (2) 21” x 7” rectangles from fabric B
• Four (4) 1½” x WOF rectangles from fabric C
• One (1) 3” x WOF rectangle from fabric C
INSTRUCTIONS

Step 1. Constructing the panels
• Take one strip 1½” x WOF from fabric C & cut it in half to end up with two rectangles 21” wide.
• Take one rectangle from fabric B.
• Take two rectangles from fabric A.
• Start attaching these pieces together in the order ACBCA. (DIAGRAM 1)
• Repeat the previous steps for the back panel.

Step 2. Hand needle stitch
• Grab one of the two panels made in the previous step. This will be the front of your bag.
• Using black embroidery thread, create two parallel lines ¼” from the edge of the fabric C rectangles. (DIAGRAM 2)

Step 3. Sew the two panels together
• Place the back panel on top of the front panel face-to-face and make sure they are perfectly aligned.
• Sew around with a ½” seam allowance.
• Leave the top open. (DIAGRAM 3)

Step 4. Sew on drawstring band
• Take the remaining piece from fabric C (3”) and sew it closed on the short edges (face-to-face) as to create a band.
• Pin it around the bag right-side-to-right-side and start attaching it to the bag. (DIAGRAM 4)
• Press the band upwards and fold it in half towards the inside of the bag.
Step 5. Make the strip

- Using the remaining 1½” strips from fabric C, make the drawstring.
- Fold it in half face-to-face (length wise) and sew it closed ¼” away from the edge, but leave one of the short sides open for turning.
- Turn the drawstring and close the opening by folding it ½” on itself and sewing it closed with a blind hand-needle stitch (DIAGRAM 6).

Voila! You just finished one of the bags, repeat previous steps to make the other one!
