CONSTRUCTION

Sew all rights sides together with ½” seam allowance.

- This pillow is made with fusible web which is a double sided adhesive used for appliqué. Read the product instructions along with these steps.

- After cutting the squares and the rectangles from fabrics A and B take the left over piece of fabric, peel off one of the papers of the fusible web and fuse it to wrong side of the fabric, by pressing it lightly with the iron.

- Trace with a pencil each pattern piece on the paper side of the fusible. Make sure every piece is cut on the correct fabric and cut neatly on the line.

- On Fabric C notice the pattern Piece F is divided in two. Join them with tape using the arrows as notches then trace it and cut it like the other pieces.

- When all the pieces are cut assemble the face of the pillow in this order:
  - 17” Square
  - Pattern Piece F
  - Pattern Piece A (or A2)
  - Pattern Piece B
  - Pattern Piece C (or D+E)

- Peel paper away and leave the adhesive on the fabric.

- Position the design with the glue side down and press smooth out. Now iron.

- Cut out a piece of batting 18” x 18”, smooth fabric top over it and pin in place.

- Although you can use fusible web for seams without sewing we recommend you sew the raw edges, especially on the big pieces (Pattern Piece F and A). Use a stitch that will prevent the pieces from fraying, like a zig-zag stitch or an appliqué stitch.
ASSEMBLY

Sew rights sides together:

- These pillows have an envelope style back.

- Lay your pillow top right side facing up and layer the back pieces on top, right sides facing down. Make sure the hemmed edges are overlapping each other and match the top and back edges together.

- Pin and sew together at ½” seam allowance.

- Flip right side out, making sure the corners are turned out nicely and stuff with your 16” pillow forms.

- Congrats! Time to snuggle up with your new pillows!
