**ADDITIONAL MATERIALS**

- Two (2) 1/2” Swivel Claps
- One (1) 1/2” Rectangle Adjustable Slider
- Two (2) 1/2’ D Rings
- Two (2) Small (1/2”) Magnetic Snaps
- Woven Interfacing
- Fusible Fleece

**CUTTING DIRECTIONS**

- Two (2) Front Bag/Back Bag pieces from Fabric A, D, and Fusible Fleece
- Four (4) Front Bag/Back Bag Pieces from Woven Interfacing
- One (1) 3” x WOF Strip from Fabric A and D (Side Panel)
- Two (2) Flap Pattern Pieces from Fabric B
- Eight (8) Corner pieces from Fabric B
- Two (2) 3” x 13” strips from Fabric B (Flap Panel)
- One (1) 4” x10” strip from Fabric C (Handle)
- One (1) 4” x WOF strip from Fabric C (Strap)
- Two (2) 4” x 9 1/4” strips from Fabric C (Flap Straps)
- Two (2) 4” x 3” strips from Fabric C (Strap extenders)

**CONSTRUCTION**

Sew all rights sides together with ½” seam allowance unless otherwise noted.

- **Step 1: Attaching Fusible**
  - Take all of your front/back bag pieces from Fabric A and D, a 3” x WOF strip from Fabric D, both 4” x 9 1/4” strips from Fabric C and 4” x 10” strip from Fabric C and fuse woven interfacing to the wrong sides of the fabric.
  - Next take your front bag pieces and 3” x WOF strip from Fabric A and fuse a piece of fusible fleece to the wrong side of the fabric.

- **Step 2: Straps**
  - Take your handle, strap, and strap extender strips cut from Fabric C and fold raw edges into the center of your strip and press. Fold in half and press.
  - Topstitch each side of your straps. (Diagram 1)

- **Step 3: Applying the Magnetic Snap**
  - For your Flap Straps fold raw edges into the center of your strip and press and then fold in half and press. Open back up and measure 2 1/2” up from the bottom of your strap and mark (Diagram 2)
  - Trim each corner. This is where you will place the male side of your magnetic snap.
• Note: A magnetic snap has two main components, a male side & a female side. The magnetic snap also comes with a backing washer for each component.

• When you purchase a magnetic snap, you will receive 4 metal pieces in total.

• Place a washer on your mark. Mark with a pencil two lines, from top and bottom tracing inside the rectangles on the washer. (Diagram 3)

• Remove the washer and make two slits on those marks using a small pair of sharp scissors.

• Place the arms of the male magnet clasp through the slits from the right side of the strip. (Diagram 4)

• Put the washer over the arms from the interfacing side.

• Using pliers, fold each arm of the clasp out and down in opposite directions around the washer. Make the arms as flat as a possible. (Diagram 5)

• Next fold under raw edges about 1" and fold in half and press. Topstitch around your strip. (Diagram 6)

• Repeat this process for your other flap strap.

• Step 4: Creating the Flap

• Take one of your flap pieces and place your flap straps 2 1/2" in from each side. (Diagram 7)

• Topstitch your flap straps to your flap. Stop at least a 1/2" from the end.

• Sew a 3" x 13" strip from Fabric B to the tops of both of your flap pieces.

• Place front and back flap pieces together and sew them together at 1/4".

• Clip corners on seam allowance and flip piece right sides out and press. Topstitch around entire piece at 1/8" or 1/4".

• To attach the female side of the magnetic snap repeat the same process following Diagram 3-5 with the female magnetic snap.

• Take your front bag and place flap on top and find where the male sides of the snap meets the front bag and mark. (Diagram 8)
• Step 5: Assembling the Bag

• Take your 3” x WOF from Fabric A and find the center of your strip by folding it in half and making a crease with the iron. Find the center of your front bag in the same way.

• Pin and sew side panel to front bag right sides together. Trim off excess side panel and pin and sew back bag to other side of side panel.

• Next take your front and back lining pieces and trim tops of them at 1/4”. Making the lining slightly shorter will help the lining sit inside the bag flatter and nicer.

• Sew side panel to front and back lining trimming the excess panel. Leave a small unsewn portion to flip right side of bag through.

• Step 6: Creating strap extenders and adjustable straps

• Thread a 1/2” D ring through strap extender and fold in half with short ends touching and stitch in place at 1/4”. (Diagram 9)

• Place the strap extenders at the center of your side panel and stitch into place at 1/4”. (Diagram 10)

• Weave end of strap over the middle bar of your adjustable strap slider and down under the second side of your slider. (Diagram 11)

• Fold under the raw edge at 1”. Sew end to strap, sewing a 1” box with an X in the middle. (Diagram 12)

• Take the other end of your strap and thread the swivel clap through the slider. (Diagram 13)
• Take the second end again and put it through the slider. The stitched end of your strap should be tucked inside the layers of your strap. (Diagram 14)

![Diagram 14]

• Take the other end of your strap and thread it through the second swivel clap and fold raw edge under 1” and sew a 1” box with an X in the middle to secure to strap. (Diagram 15)

![Diagram 15]

• **Step 7: Attaching the Lining**

  • Sew flap at 1/4” to back side of bag making sure the front part of the flap is touching the right side of your back bag.

  • Place exterior of bag inside lining making sure right sides are touching. Pin lining to the exterior of the bag and sew all the way around the top of your bag at 1/2” seam allowance.

  • Pull exterior of bag through the unsewn portion in the lining.

  • Handstitch or machine stitch unsewn portion.

  • Place lining on the inside of your bag and topstitch the top of your bag at 1/4”. Attach your strap to the D rings and your bag is complete!

---

**NOTE:** While all possible care has been taken to ensure the accuracy of this pattern, we are not responsible for printing errors or the way in which individual work varies. Please read instructions carefully before starting the construction of this quilt. If desired, wash and iron your fabrics before starting to cut.
