CUTTING DIRECTIONS

¼" seam allowances are included. WOF means width of fabric.

**Blue Version:**

- One Hexagon from Fabric A,B,C,E,F,G,,H,I, and J
- Two from Fabric D

**CONSTRUCTION**

- Sew all rights sides together with ¼" seam allowance.
- Cut out 11 hexagon templates on card-stock paper. (Finished Hexagon)
- Following the cutting directions cut out hexagons from fabric using the template with seam allowance.
- Feel free to glue, or hand baste your hexagon fabric pieces to your card-stock template.
- Take hexagon fabric pieces and place your hexagon template in the center of your piece on the wrong side of the fabric and pin into place. (Diagram 1)

**Pink Version:**

- Fold the top raw edge of your hexagon over your template. (Diagram 2)
- With your thumb hold fabric down over the pointed edge and fold over other side of fabric with your other hand. Hold with your thumb and from the left to the right, stitch twice at the beginning to secure your thread so you don't have to create a knot at the end of your thread. (Diagram 3)
Repeat this same process for all the sides of your hexagon, stitching from left to right on each corner. When you get to the last corner stitch twice to secure end.

- Remove pin and give your hexagon a good press.
- Hand stitch hexagons together with a whip stitch following the place mat illustration.
- Once they are sewn together remove the paper.
- Or you can remove the paper templates and individually place hexagons to background fabric batting and backing. Topstitch around each hexagon to secure to background fabric.

- If you whip stitched hexagons together, pin to background fabric, batting piece, and backing. Quilt as desired to secure hexagons and background and backing.
- Square off piece and attach binding.

**BINDING**

*Sew rights sides together.*

- Cut enough strips 1 ½” wide by the width of the fabric B or D to make a final strip 60” long. Fold strip in half and press. Start sewing the binding strip in the middle of one of the sides of the quilt, placing the strip right side down with the fold edge of your binding facing in and leaving an approximated 5” tail. Sew with ¼” seam allowance (using straight stitch), aligning the strip’s raw edge with the quilt top’s raw edge.

- Stop stitching ¼” before the edge of the quilt ([DIAGRAM B1]). Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers ([DIAGRAM B2]). Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt ([DIAGRAM B3]).

- Start sewing at ¼” of the border, stitching all the layers. Do the same in the four corners of the quilt.

- Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).

- Trim seam to ¼” and press open. Complete the sewing. Turn binding to back of the quilt, turn raw edge inside and stitch by hand using blind stitch.
