QUILT ASSEMBLY

Sew rights sides together.

• For this coasters we attached a medium weight fusible interfacing to the front side to give them some stability.

• We created symmetrical quilt designs with metallic thread. However, quilting motifs are a matter of personal preference. Have fun choosing yours!

FINAL ASSEMBLY

Sew rights sides together.

• Place your coasters front side over the backing fabric.

• Cut six (6) 4½ squares from fabric G (suggested) for backing.

• Attach each square to the six coasters with ¼” seam allowance right sides facing together, leave a 3” opening in one side and flip right side out, making sure the corners are turned out nicely and hand stitch the small opening. Finally your 4” coasters should be ready! Enjoy (with a martini)!

NOTE: While all possible care has been taken to ensure the accuracy of this pattern, We are not responsible for printing errors or the way in which individual work varies. Please read instructions carefully before starting the construction of this quilt. If desired, wash and iron your fabrics before starting to cut.
