PE-436

DEN-L-4000

FINISHED SIZE | 24"x 32 3/4"

FABRIC REQUIREMENTS

Fabric A TOR-23863 7/8yd
 Fabric B PE-436 1/2yd

BACKING FABRIC
 DEN-L-4000- 3/4yd (Suggested)

CUTTING DIRECTION

Sew all rights sides together with 1/4" seam allowance.

- Four (4) 10" x 10" squares from Fabrics A, B
- One (1) 24 1/2" x 3 1/4" rectangle from Fabric A
- Two (2) 24 1/2" x 3 1/2" rectangles from Fabric A

CONSTRUCTION

Sew all rights sides together with 1/4" seam allowance.

- Start by taking fabric A and B 10" x 10" squares, right sides facing
- Stitch all edges at a 1/4" seam
- Then, cut as diagram below

DIAGRAM 1

- Arrange the HSTs into an hourglass block and sew together.
- Press, trim if necessary
- The block should measure 12 3/4" square.
- Repeat the same process three more times, so you have a total of four (4) blocks.

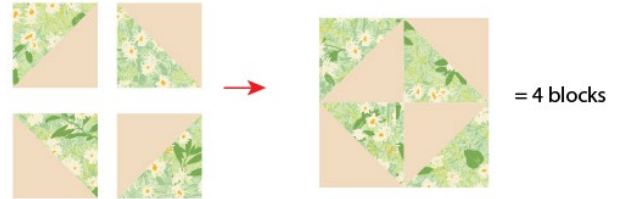

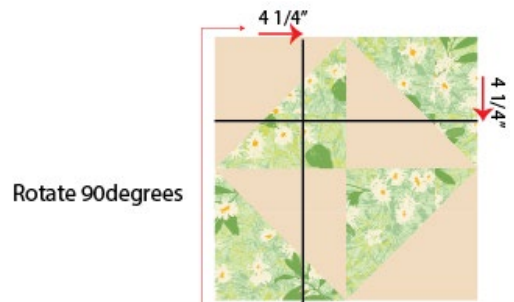

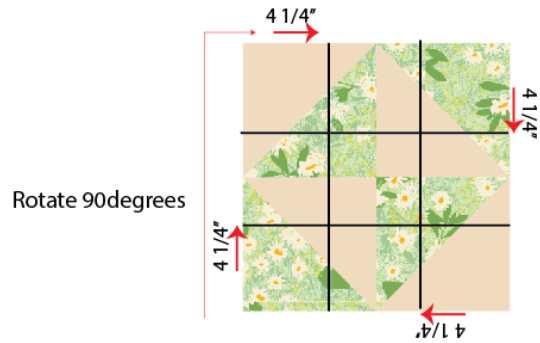

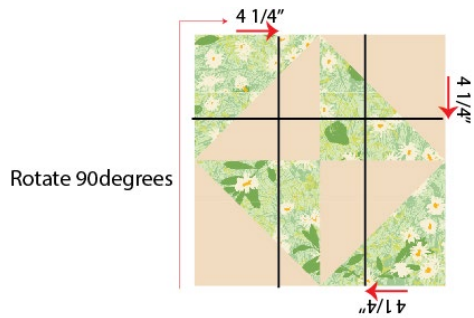

DIAGRAM 2

- Divide the total size of the block by 3, that will be the measurement to start cutting your block, which will be 4 1/4" x 4 1/4"
- That should be your start, from your left edge in.
- Trace and cut

You should have a total of nine (9) small blocks measuring 4 1/4

DIAGRAM 3

- Now, take the middle top block and the left middle block and swap them as diagram below.
- Repeat the same with the middle right and middle bottom block.
- You should have a a block looking like diagram below.
- Sew each piece together
- Repeat the same process for the other three (3) pieces.

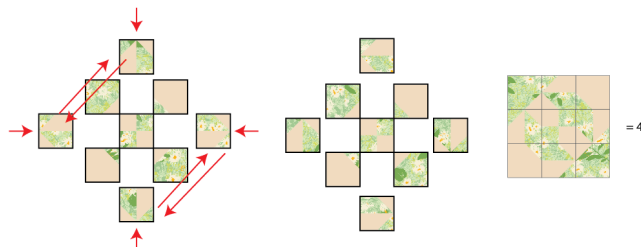

DIAGRAM 4

- Now, take two blocks and rotate one 90 degrees (mirror effect) and sew them together.

DIAGRAM 5

- Repeat the same process for the other two blocks but rotate them 180 degrees as diagram below:

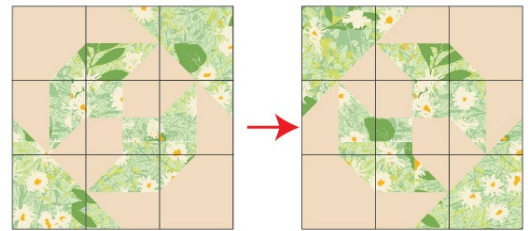

DIAGRAM 6

- Now take your 24 1/2" x 3 1/4" rectangle and your two (2) 24 1/2" x 3 1/2" rectangles from Fabric A and follow diagram below for each row assembly and trim excess fabric if needed

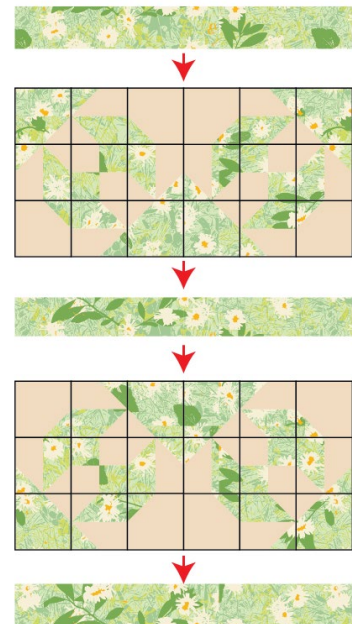

DIAGRAM 7
