- Repeat entire process three times to make a total of four blocks. Referring to the layout diagram, rotate the four blocks to match the diagram, then sew them together into two rows. Press the two blocks in the two rows in opposite directions. Sew the two rows together, matching seams. Note: you can adjust the rotation of the blocks in other directions to get different overall effects for your quilt.

QUILT ASSEMBLY

Sew right sides together.

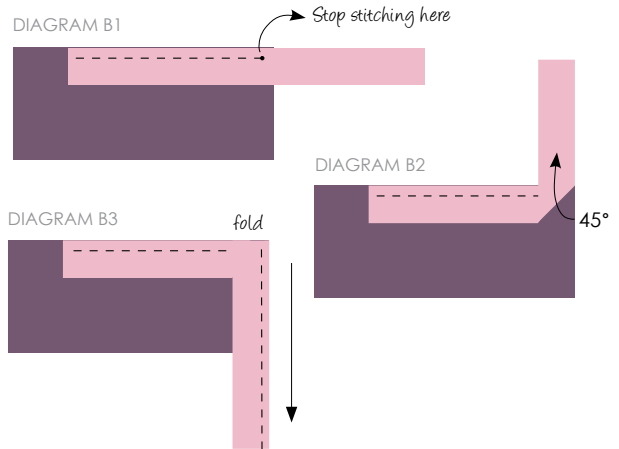

- Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.
- Place BATTING on top of backing fabric.
- Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.
- Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.
- Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motifs are a matter of personal preference. Have fun choosing yours!
- After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.

BINDING

Sew right sides together.

- Join the (7) 2 ½" binding strips end to end. Press the long binding piece in half with right sides facing out. Start sewing the binding strip in the middle of one of the sides, placing the strip on the top of the quilt matching raw edges. Leave a 6" tail and begin sewing the binding to the quilt top using a 1/4" seam.
- Stop stitching 1/4" before the edge of the quilt. Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers. Hold this fold with your finger, and bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt. Start sewing again with a 1/4" seam allowance. Do the same for all four corners of the quilt.
- Stop stitching before you reach the last 10 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding together.
- Trim seam to 1/4" and press open. Finish sewing the remaining part of the binding to the quilt. Fold the binding from the front to the back and sew down by hand using a blind stitch.
