2 (two) 64 1/2" x 1 1/2" Fabric C strips*

Both the ORIGINAL and the COLOR OPTION quilts are constructed in the same way with a direct replacement of most fabrics. But note that there are slight variations in the borders and binding that will be specified in a box like this one.
**BLOCK CONSTRUCTION**

Sew all rights sides together with ¼” seam allowance. Press open.

**BLOCK 1**

- This block is conformed by four identically pieced squares which are then sewn mirroring each other. There are two variations of fabric placement which will be explained below. Please read the instructions carefully.

**Here is how to sew EACH square**

- Grab 1 triangle from fabric A, 1 of the rectangles from fabric G, 1 rectangle from fabric E, and 1 triangle from fabric F. Find the center of each piece by folding it in half and pressing it with your finger tips to create a crease. Attach each piece to the next in the order AGF making sure you align all the centers (DIAGRAM 1).

- Press seams open

- Grab 1 triangle from fabric B, and 1 triangle from fabric E. Here is where the variation occurs, for half of the squares, you will attach the fabric B triangle on the right side of fabric G and the fabric E triangle on the left (a). For the other half you will do the opposite (b). Again make sure you find the centers of each piece and align them there (DIAGRAM 2). After pressing, square the pieces with a ruler following the triangle from fabric F.

- You will construct 36 of the (a) version mini blocks, and 36 of the (b) version mini blocks.

**APPLIQUÉ CIRCLES**

- Then grab two squares of each version and arrange them so that all triangles from fabric F meet in the middle and so that the two from the same version meet diagonally. This is the complete pieced part of your block (DIAGRAM 3).

- Grab one 2 1/4” circle from fabric C. Press all of the edges ¼” toward the wrong side of the fabric so that they are all clean for the appliqué process.

- Place the circle on the square created in the intersection of four attached mini blocks. Make sure that the circle is centered, and apply it on with a blanket stitch* in a matching thread color (DIAGRAM 4).

- Repeat the previous steps until you have applied 12 circles from fabric C, and 6 circles from fabric B; one on each block.

* A blanket stitch is a basic sewing stitch in which widely spaced, interlocking loops, or purls, are formed. Used for appliqué, as a decorative finish for edges, etc.
BLOCK 2

ASSEMBLING THE TOP

- For this quilt you will first assemble the columns. Please refer to the cover photo to determine the position of each block.
- After you have assembled all columns of Block 1 (a & b), and all the columns of Block 2, you can start to join the block columns to the dividing panels. MAKE SURE you follow the cover photo to determine the order.

BORDERS ASSEMBLY

- For the inner border
  - Sew two 60½" x 1½" Fabric C strips along the left & right sides of the quilt top.
  - Sew the other two 64½" x 1½" Fabric C strips along the top & bottom sides of the quilt top.

- For the outer border
  - Sew two 62½" x 3½" Fabric F strips along the left & right sides of the quilt top.
  - Sew the other two 70½" x 3½" Fabric F strips along the top & bottom sides of the quilt top.

- For the outer border of the COLOR OPTION quilt, you will replace fabric F for fabric H.

QUILT ASSEMBLY

- Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.
- Place BATTING on top of backing fabric.
- Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.
- Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.
- Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motives are a matter of personal preference. Have fun choosing yours!
- After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.
**BINDING**

Sew right sides together.

- Cut enough strips 1½" wide by the width of the fabric G to make a final strip 290" long. Start sewing the binding strip in the middle of one of the sides of the quilt, placing the strip right side down and leaving an approximated 5" tail. Sew with ¼" seam allowance (using straight stitch), aligning the strip’s raw edge with the quilt top’s raw edge.

- Stop stitching ¼" before the edge of the quilt (DIAGRAM B1). Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers (DIAGRAM B2). Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt (DIAGRAM B3). Start sewing at ¼" of the border, stitching all the layers. Do the same in the four corners of the quilt.

- Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).

- Trim seam to ¼" and press open. Complete the sewing. Turn binding to back of the quilt, turn raw edge inside and stitch by hand using blind stitch.

**For the binding of the COLOR OPTION quilt, you will replace fabric G for fabric A.**
