Applying the Magnetic Snap

- **Note:** A magnetic snap has two main components, a male side & a female side. The magnetic snap also comes with a backing washer for each component. When you purchase a magnetic snap, you will receive 4 metal pieces in total.

- Find the midpoint of your back and front lining pieces and measure down 2" and place a small 1" x 2" piece of ultra firm stabilizer. Iron stabilizer into place. Mark the 2" mark on top of stabilizer.

- Place a washer on this mark. Mark with a pencil two lines, from top and bottom tracing inside the rectangles on the washer. (Diagram 8)

- Remove the washer and make two slits on those marks using a small pair of sharp scissors.

- Place the arms of the male magnet clasp through the slits from the right side of the strip.

- Put the washer over the arms from the fusible side.

- Using pliers, fold each arm of the clasp out and down in opposite directions around the washer. Make the arms as flat as a possible.

- To attach the female side of the magnetic snap repeat the same process following Diagram 8-10 with the female magnetic snap.

- Place exterior of bag inside lining making sure right sides are touching and that the straps are out of the way. Pin lining to the exterior of the bag and sew all the way around the top of your bag at 1/2" seam allowance.

- Pull exterior of bag through the unsewn portion in the lining.

- Handstitch or machine stitch unsewn portion.

- Now, handstitch your fussy cut piece on your strap, making sure you do an invisible stitch, covering the magnetic piece.
