BACKING FABRIC
NUC-21984 - 2yds. (suggested)

BINDING FABRIC
PE-483 (Fabric D) (included)

CUTTING DIRECTIONS

¼" seam allowances are included.
WOF means width of fabric.

- Two (2) 30½” x 30½” square from Fabric A
- Twelve (12) 5½” x 5½” square from Fabric B
- Two (2) 10½” x 5½ rectangle from Fabrics C, D, E

CONSTRUCTION

Sew all rights sides together with ¼" seam allowance. HST means Half Square Triangles.

- Start with the Flying Geese construction by taking the 10½” x 5½ rectangles and the 5½” x 5½” squares and follow the diagram for each fabric assembly.

* Join the Flying Geese in the following order:

Now, take two (2) 30½” x 30½” squares from Fabric A (stripes facing vertical) and pair one on each side of the flying geese unit.
**QUILT ASSEMBLY**

* Sew rights sides together:

- Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.

- Place BATTING on top of backing fabric.

- Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.

- Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.

- Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motifs are a matter of personal preference. Have fun choosing yours!

- After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.

**BINDING**

* Sew rights sides together:

- Cut enough strips by the width of the binding fabric to make a final strip. Start sewing the binding strip in the middle of one of the sides of the seam, placing the strip right side down. Sew with ¼" seam allowance (using straight stitch), aligning the strip’s raw edge with the tote seam’s raw edge.

- Stop stitching ¼” before the edge of the tote (DIAGRAM B1). Clip the threads. Remove the tote from under the machine presser foot. Fold the tote in a motion of 45° and upward, pressing with your fingers (DIAGRAM B2). Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the tote (DIAGRAM B3). Start sewing at ¼” of the border, stitching all the layers. Do the same all the corners.

- Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the tote from under the machine presser foot. Lay the loose ends of the binding flat along the tote edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).

- Trim seam to ¼’ and press open. Complete the sewing. Turn binding to back of the tote, turn raw edge inside and stitch by hand using blind stitch.
