CONSTRUCTION

Sew all rights sides together with ¼” seam allowance.

Flat Felled Seam Technique

• Pin fabrics right sides together. (Diagram 1)

• Sew with a ⅝” allowance. (Diagram 1.2)

• Trim one side of seam allowance so that it’s half the width of the other seam allowance. (Diagram 1.3)

• Fold raw edges in and press the wider seam allowance.

• Fold the wider seam allowance over the narrower one and press. For the strongest seam, you want the raw edge of the wider side to come all the way to the stitching line. (Diagram 1.4)

• Fold again and press.

• Fold the whole seam allowance over and press it flat. The raw edges will be tucked within.

• Edgestitch the seam allowance in place. (Diagram 1.5)

ASSEMBLY THE TOP

• Follow the Diagram below for the quilt assembly
* Follow the Diagram below for each row assembly
QUILT ASSEMBLY

Sew rights sides together

- Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.
- Place BATTLING on top of backing fabric.
- Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.
- Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.
- Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motifs are a matter of personal preference. Have fun choosing yours!
- After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.

BINDING

Sew rights sides together.

- Cut enough strips 1 ½" wide by the width of the fabric to make a final strip 240" long. Start sewing the binding strip in the middle of one of the sides of the quilt, placing the strip right side down and leaving an approximated 5" tail. Sew with ¼" seam allowance (using straight stitch), aligning the strip's raw edge with the quilt top's raw edge.
- Stop stitching ¼" before the edge of the quilt. Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers. Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt. Start sewing at ¼" of the border, stitching all the layers. Do the same in the four corners of the quilt.
- Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).
- Trim seam to ¼" and press open. Complete the sewing. Turn binding to back of the quilt, turn raw edge inside and stitch by hand using blind stitch.
Congratulations & enjoy
