CONSTRUCTION

Sew all rights sides together with ¼"seam allowance.

Spider Web Block

- Start by sewing one (1) WOF x 7¾" strip from fabrics D and H, and one (1) WOF x 7½" strip from fabrics C and B in the order shown on diagram 1, repeat this step one more time. You should have two (2) WOF x 29" strip blocks.

- Place the triangle template on top of the strip block, match the notches located on the sides of the template and the seam between fabric C and B. Pin if it is necessary and following the outline of the template cut the strip block.

- Now, follow the previous step, but this time rotate the position of the template. See diagram below for reference. Repeat the same step with the other strip block.

- You will end up with two different triangle blocks, which we will call Triangle 1 and Triangle 2.

Block 1:

- Join Triangle 1 with two (2) triangle templates from fabric A. See diagram 3 for reference.
Block 2:
• Join Triangle 2 with three (3) triangle templates from fabric A. See diagram below for reference.

Block 3:
• Join Triangle 1 with three (3) triangle templates from fabric A. See diagram below for reference.
**Block 4:**

- Join Triangle 2 with two (2) triangle templates from fabric A. See diagram below for reference.

![Diagram 6](image)

- Trim the piece previously sewn to a 62” x 32½” rectangle. See diagram 8 for reference.

![Diagram 8](image)

- Join block 1, 2, 3 and 4 as shown on diagram below.

![Diagram 7](image)

- Use fabric A left over from the previous diagram and cut four (4) template 1. See diagram below for a guide to cut template 1.

![Diagram 9](image)
• Take all template 4 from fabric A, and using steam a seam place them on the wider part of triangle 1 and 2 as an appliqué. See diagram below for reference.

Bat Block

HST construction

• Place one (1) 2½” squares from fabrics A and F right sides together.

• Mark a diagonal line on the wrong side of the square.

• Sew scant ¼” seam on both side of the drawn line and using a rotary cutter, cut through the drawn line. Trim each HST to a 2” square.

• Place one (1) 1” square from fabric A on the left edge of one (1) 1” x 2” rectangle from fabric F, wrong sides facing together. Sew diagonally from the top left corner to the bottom right corner of the square from fabric A, trim ¼” away from the seam and press. See diagram below for reference.

• Repeat the previous step with the following fabrics:

Applique Instructions:

Cat's Eyes:
- For the left eye, place template 8.2 from fabric J on top of template 8.1 from fabric G, then place it on template 8. Use double fusible interfacing such as Steam a Seam to place the templates in place. See diagram below for reference.

- For the right eye, place template 9.2 from fabric J on top of template 9.1 from fabric G.
- Then place it on template 9. Use double fusible interfacing such as Steam a Seam to place the templates in place. See diagram below for reference.

Cat's Nose and Ears:
- Place template 5 from fabric I on top of template 2 from fabric J. See diagram below for reference.
- Before you place the ears place template 6 and 7 from fabric J on top of some left overs from fabric H and cut fabric H a little over the outline of fabric J. That will allowed template 6 and 7 to be seen on top of template 2.
- Then place template 6 and 7 on top of template 2. Use double fusible interfacing such as Steam a Seam to place the templates in place. See diagram below for reference.

Face Details (Optional):
- You can finish the face details by doing some by hand stitches.
• Using Double side fusible interfacing, place the Cat’s face template 3 and 4 on the bottom edge of the quilt top. You can also make finish details to the cat’s face by adding some stitches by hand, to create the cat’s whiskers and paws details such as the claws.

• Use one (1) 2½” x WOF strip from fabric G to create the spider thread, you will be needing one for each spider.

• Measure the distance from each spider to the spider web, cut each strip accordingly and use double sided fusible interfacing to place the spider thread in place.
• Quilt as desired.

**QUILT ASSEMBLY**

*Sew rights sides together.*

• Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.

• Place BATTING on top of backing fabric.

• Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.

• Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.

• Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motifs are a matter of personal preference. Have fun choosing yours!

• After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.

**BINDING**

*Sew rights sides together.*

• Cut enough strips 1½" wide by the width of the fabric G to make a final strip 356" long. Start sewing the binding strip in the middle of one of the sides of the quilt, placing the strip right side down and leaving an approximated 5" tail. Sew with ¼" seam allowance (using straight stitch), aligning the strip's raw edge with the quilt top's raw edge.

• Stop stitching ¼" before the edge of the quilt (DIAGRAM B 1). Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers (DIAGRAM B2). Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt (DIAGRAM B3). Start sewing at ¼" of the border, stitching all the layers. Do the same in the four corners of the quilt.

• Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).

• Trim seam to ¼" and press open. Complete the sewing. Turn binding to back of the quilt, turn raw edge inside and stitch by hand using blind stitch.
