## CUTTING DIRECTIONS

Using the templates at the end of these instructions, trace and cut your favorite scraps from the Juniper Collection. **You can use two different colors for a nice contrast.**

## CONSTRUCTION

### 1. Sew The Pieces Together:

Place two leaf shapes together with the right sides **facing each other**.

Use a sewing machine or hand-sew around the edge, leaving a small gap of 1½" to turning the leaf inside out.

## 2. Snip on each concave

Snip small notches along the concave parts of the leaf to help it turn inside out more easily.

### 3. Turn the Leaf Inside Out:

Use a wooden stick or pencil to gently push the edges of the leaf out through the gap.

Ensure the points of the leaf are well-defined.

#### 4. Add Stuffing:

Carefully stuff the leaf with the stuffing of your choice to give it a plump appearance.

Close the gap by stitching it shut, either by hand or edge Stitch.

### 5. Marking leaves' veins:

Use an erasable pen or chalk to mark the leaves' veins.

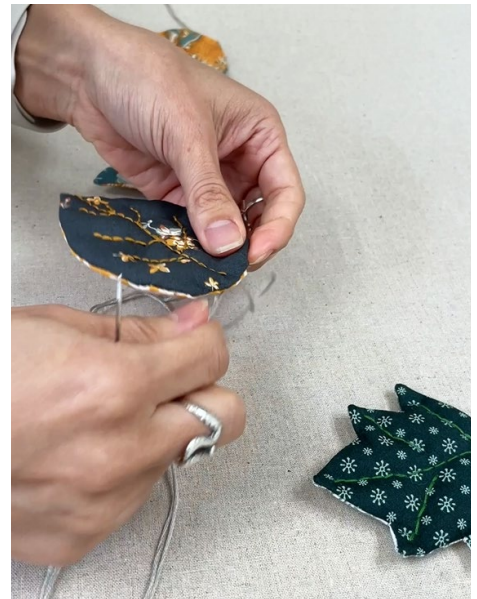

### 6. Add Embellishment:

With embroidery floss, sew along the marked veins using the backstitch. Once you've sewn the veins, finish the last one, and tie off the thread.

## 7. Attach the Garland Rope:

Measure the desired length you want your garland to be and the spaces between every leaf.

Stitch the rope through the top of each leaf to create your garland.

HANG YOUR  
"LITTLE LEAVES GARLAND" AND  
ENJOY **YOUR MASTERPIECE!**
