Block 1

Strip Set Technique

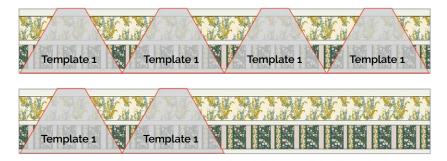

• Lay out the following strips in this order:

1" strip of fabric Q, 3" strip of fabric G, 1" strip of fabric Q, 3" strip of fabric B, and ¾" strip of fabric Q.

- Place the 1" strip of Fabric Q and the 3" strip of Fabric G right sides together, aligning the edges. Sew a SCANT ¼" along the length of the strips and press. Take the second 1" strip of Fabric Q and align it with the sewn Q-G piece, right sides together. Sew a SCANT ¼" along the edge and press. Align the 3" strip of Fabric B with the sewn Q-G-Q strip, right sides together. Sew a SCANT ¼" along the edge and press. Align the ¾" strip of fabric Q with the sewn piece, right sides together. Sew a SCANT ¼" along the edge and press.
- The strip set should measure 63/4" x WOF.

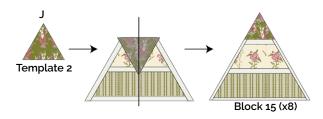

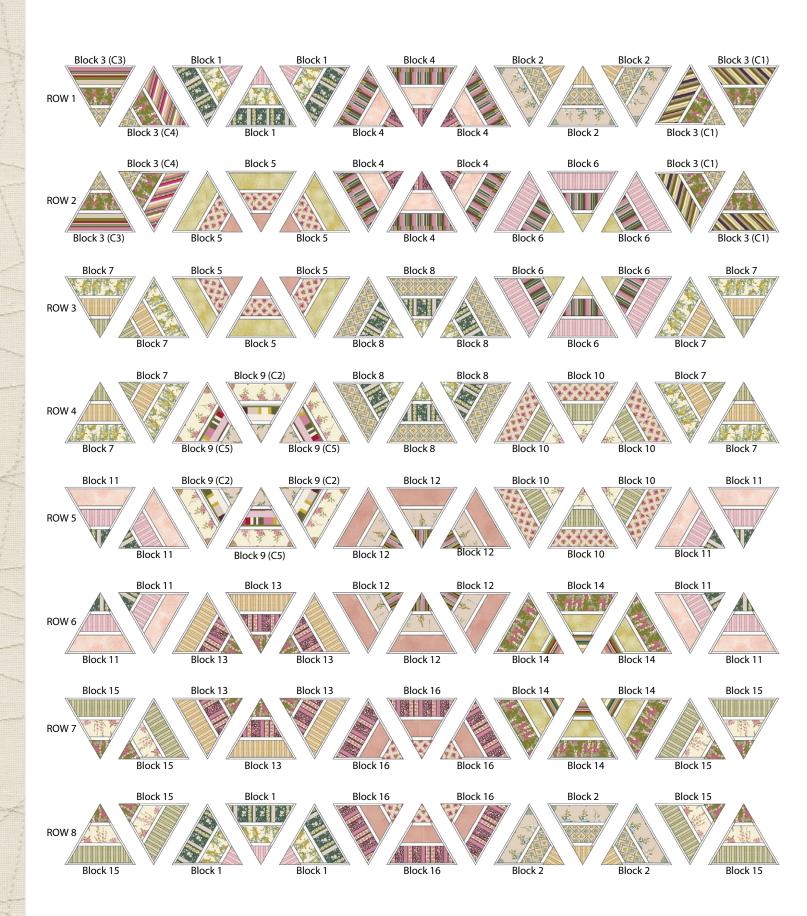

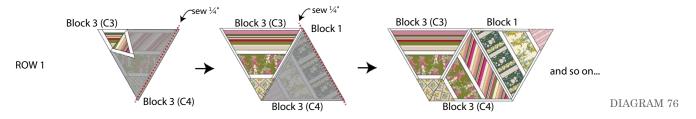

DIAGRAM 74

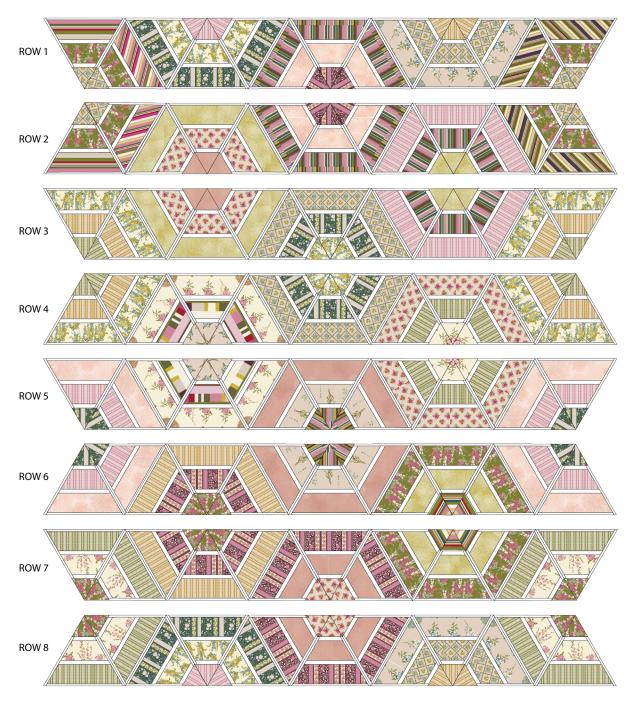

• Use this diagram to place the blocks in the direction shown.

• Sew the triangle blocks alternating the direction of each triangle's tip, beginning with the first triangle pointing down. Make sure not to stretch the fabric. Using ½" seam allowance, join the triangles from left to right. Be sure to press gently to avoid stretching your blocks. See the example in diagram below.

• Refer to the diagram below to arrange the blocks into 8 (eight) rows, with 13 (thirteen) triangles in each row. Line up each row of triangles in the order and position shown on the diagram. Make sure not to stretch the fabric. Using ½" seam allowance, join the triangles from left to right. Be sure to press gently to avoid stretching your blocks. See the example in diagram below.

QUILT TOP

- Measure the quilt's length and width. Find the center point. This step ensures that you trim the quilt symmetrically. Start by trimming one side of the quilt. Use your square ruler (or a long ruler if the quilt is large) to line up with the center of the quilt and one of the quilt's edges. The ruler's edge should be aligned with the desired final size of the quilt.
- Trim slowly to avoid any uneven cuts. After trimming one side, rotate the quilt and use the ruler to trim the opposite side. Again, make sure the ruler aligns with the quilt's center and edges to keep the quilt square. Trim the other two sides in the same manner.

QUILT ASSEMBLY

Sew rights sides together.

- Place BACKING FABRIC on a large surface wrong side up. Stretch it with masking tape against that surface.
- Place BATTING on top of backing fabric.
- Place TOP on top of the batting with right side facing up. Smooth away wrinkles using your hands.
- Pin all layers together and baste with basting thread, using long stitches. You can also use safety pins to join the layers.
- Machine or hand quilt starting at the center and working towards the corners. Remember that quilting motifs are a matter of personal preference. Have fun choosing yours!
- After you finished, trim excess of any fabric or batting, squaring the quilt to proceed to bind it.

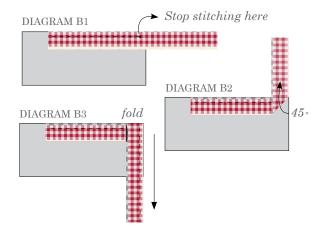

BINDING

Sew rights sides together.

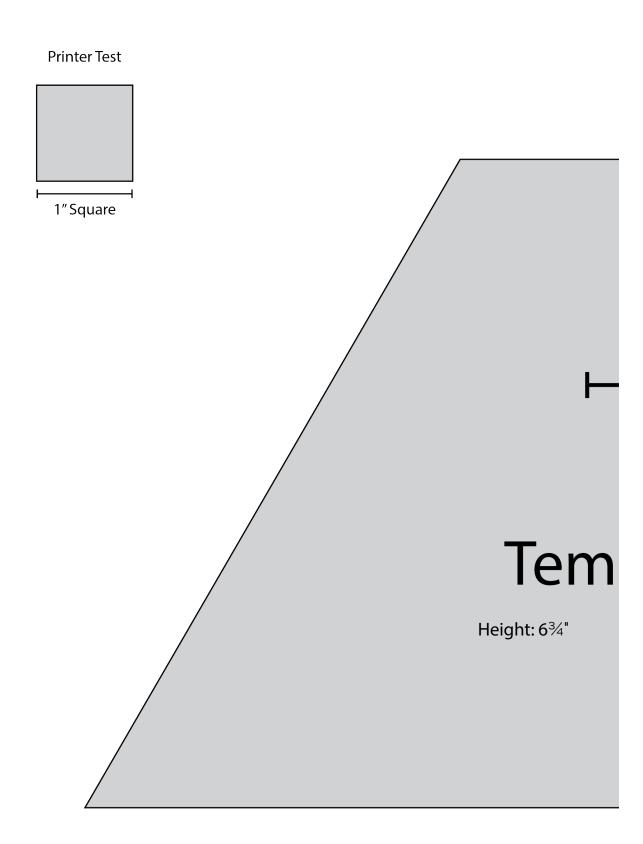

- Cut enough strips 2½" wide by the width of the fabric **R** to make a final strip 306" long. Start sewing the binding strip in the middle of one of the sides of the quilt, placing the strip right side down and leaving an approximated 5" tail. Sew with ½" seam allowance (using straight stitch), aligning the strip's raw edge with the quilt top's raw edge.
- Stop stitching ½" before the edge of the quilt (DIAGRAM B 1). Clip the threads. Remove the quilt from under the machine presser foot. Fold the strip in a motion of 45° and upward, pressing with your fingers (DIAGRAM B2). Hold this fold with your finger, bring the strip down in line with the next edge, making a horizontal fold that aligns with the top edge of the quilt (DIAGRAM B3). Start sewing at ¼" of the border, stitching all the layers. Do the same in the four corners of the quilt.

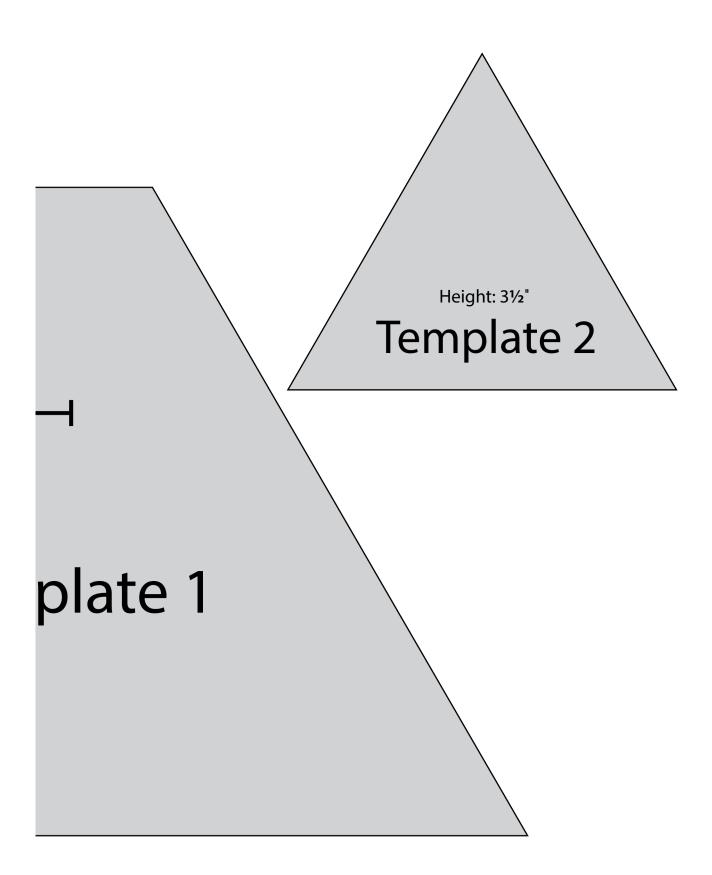

• Stop stitching before you reach the last 5 or 6 inches. Cut the threads and remove the quilt from under the machine presser foot. Lay the loose ends of the binding flat along the quilt edge, folding the ends back on themselves where they meet. Press them together to form a crease. Using this crease as the stitching line, sew the two open ends of the binding with right sides together (you can help yourself marking with a pencil if the crease is difficult to see).

- Trim seam to ¼" and press open. Complete the sewing. Turn binding to back of the quilt, turn raw edge inside and stitch by hand using blind stitch.
