- Sew the short edges of the exterior piece and do the same with the lining piece.

- Pin the exterior piece to the edges of the square with right sides facing and sew. (fig. 1).

- Pin the lining piece to the edges of the square, right sides facing together, leave an opening big enough to turn the basket inside out. (fig 2)

- Insert the exterior basket inside of the lining basket right sides of fabric facing together, align and secure it with pins and sew all the way around.

- Use the lining opening to turn the basket inside out and handstitch it to close it. Top stitch.

- Repeat the previous steps from the basket 1 for baskets 2 & 3.
